

Isolated margin at the fixed stop

Offline fixture: 10 units at entry 100, SL 90; allocated margin 100.

```
$ python -m kis_hl.cli strategy size \  
  --input examples/strategy-size-isolated.json \  
  --as-of-ms 1789948800000  
  
{  
  "initial_margin": "100.00",  
  "maintenance_at_stop": "45.00",  
  "required_margin": "145.00",  
  "allocated_margin": "100",  
  "shortfall": "45.00",  
  "quantity": "10.00",  
  "order_authorized": false  
}
```

Required margin 145; shortfall 45; quantity and authority unchanged.

Fresh metadata and explicit tranche allocation are required.

Missing or mismatched evidence is unavailable.

Fees, funding, gaps and slippage are excluded; zero buffer is a boundary.
